STEM Project - Student Booklet

Observing My Changing World

Introduction

In this booklet, you can record all the observations you make of changes in the sky and landscape!

Contents

1. *Now and Then*
2. *Observing Changing Weather*
3. *Observing Changing Seasons*
4. *Observing Changing Landscapes*

Santos & ESWA supporting earth science education

STEM Project - Student Booklet

Now and Then

Draw the landscape

Draw the landscape you can see NOW

Date:

Draw what you think the same landscape will look like at NIGHT

Date:

Santos & ESWA supporting earth science education

STEM Project - Student Booklet

Draw what you think the same landscape will look like NEXT LESSON
Date:

Some words you can use to label your picture:

- tree
- lamp post
- fence
- plant
- sign
- building
- car
- cloud
- sky
- bird
- footpath
- Sun

What are some other words you could use?

STEM Project - Student Booklet

Observing Changing Weather

Record your weather observations in the table below

Date	
Time	AM / PM
Temperature (°C)	
Wind direction (circle one)	
Rainfall amount (mm or mL)	
It is... (circle one)	CLOUDY  RAINY  SUNNY  WINDY 
Draw the sky today	

STEM Project - Student Booklet

Observing Changing Seasons

Draw the four seasons below

<u>SUMMER</u>						<u>AUTUMN</u>					
This season is in (shade in)						This season is in (shade in)					
JAN	FEB	MAR	APR	MAY	JUN	JAN	FEB	MAR	APR	MAY	JUN
JUL	AUG	SEP	OCT	NOV	DEC	JUL	AUG	SEP	OCT	NOV	DEC
<u>WINTER</u>						<u>SPRING</u>					
This season is in (shade in)						This season is in (shade in)					
JAN	FEB	MAR	APR	MAY	JUN	JAN	FEB	MAR	APR	MAY	JUN
JUL	AUG	SEP	OCT	NOV	DEC	JUL	AUG	SEP	OCT	NOV	DEC

STEM Project - Student Booklet

Indigenous seasonal calendar we learnt about

This is the _____ seasonal calendar.

There are _____ seasons.

STEM Project - Student Booklet

Observing Changing Landscapes

Record your changing landscape observations in the boxes below

What the landscape models looked like before adding water

--	--	--

What the landscape models looked after 20 drops of water

--	--	--

STEM Project - Student Booklet

What the landscape models looked after 50 drops of water

--	--	--

What the landscape models looked after all the water was poured on

--	--	--

Which landscape model changed the most overall?
